MED

HI

**Save over \$230.00
in energy costs!***

78% Less Energy

Consumes only 66 watts of energy - 234 watts less than a 300-watt halogen torchiere. Saves \$234 on your electric bill over its 10,000 hours of life.

5 Times the bulb life

The circline bulb lasts 5 times longer than your standard halogen torchiere bulb.

Cooler & Safer Operation

Circline bulbs are not hot to touch. This product is an excellent replacement for hot operating 300-watt halogen torchieres.

Bright Warm Light

Excellent Color Rendering Index (CRI>83) and soft warm color of 3000°K

Flicker-free - InstantON™

NEPTŪN® T9 Circline Bulbs included

* Over the average rated life of the 36 watt and 30 watt bulbs (rated at 10,000 hours with combined lumen output of 4050) compared to a 300-watt halogen double end bulb (rated 4200 lumens). Based on 10¢/ 1kW.
